^a Includes Gillam, Sherman and Wasco counties

^b State-level rates include public, private and online schools, while county rates include only public and private

FACT:

Oregon's vaccination rate for the MMR vaccine has been high and steady since at least 1995

Source: Centers for Disease Control, Measles, Mumps, and Rubella (MMR) vaccination coverage among children 19-35 months by state, HHS region, and the United States, National Immunization Survey-Child (NIS-Child), 1995 through 2017.

This graph shows MMR vaccination rates in Oregon since 1995 (chart provided by the CDC). There has never been a decline in MMR vaccination rates in Oregon. According to OHA, the measles vaccination rate is currently 95.6% for K-12 students.
